

Grupa Pracuj Spółka Akcyjna

A statement on the company's compliance with the corporate governance principles contained in Best Practice for GPW Listed Companies 2021

According to the current status of compliance with the Best Practice, the Company does not apply 14 detailed principles: 1.3.1., 1.3.2., 1.4., 1.4.1., 1.4.2., 1.5., 2.1., 2.2., 2.7., 2.11.5., 2.11.6., 3.6., 4.8., 6.3.

1. DISCLOSURE POLICY, INVESTOR COMMUNICATIONS

In the interest of all market participants and their own interest, listed companies ensure quality investor communications and pursue a transparent and fair disclosure policy.

- 1.1. Companies maintain efficient communications with capital market participants and provide fair information about matters that concern them. For that purpose, companies use diverse tools and forms of communication, including in particular the corporate website where they publish all information relevant for investors.
The principle is applied.
- 1.2. Companies make available their financial results compiled in periodic reports as soon as possible after the end of each reporting period; should that not be feasible for substantial reasons, companies publish at least preliminary financial estimates as soon as possible.
The principle is applied.
- 1.3. Companies integrate ESG factors in their business strategy, including in particular:
 - 1.3.1. environmental factors, including measures and risks relating to climate change and sustainable development;
The principle is not applied.
Comments of the Company: *The Company has not yet adopted a formal document that addresses ESG topics, including environmental issues. However, sustainability issues are an important area in the Company's operations. Understanding the importance of climate change issues, the Company calculates the carbon footprint for the entire capital group, in order to not only be able to minimize its impact in this regard, but to have a basis for further initiatives seeking to neutralize its activities' impact on the environment. The Company also undertakes a number of initiatives to educate and shape pro-environmental attitudes among its employees. The Company strives to apply the corporate governance rules to the fullest extent possible, and thus, it is the Company's intention to formalize its assumed strategic objectives and to include ESG issues in them as well.*
 - 1.3.2. social and employee factors, including among others actions taken and planned to ensure equal treatment of women and men, decent working conditions, respect for employees' rights, dialogue with local communities, customer relations.
The principle is not applied.
Comments of the Company: *The Company have not yet adopted a formal document that addresses ESG topics, including, including social and employee issues. Nevertheless, the Company attaches great importance to these issues and takes care of ensuring the gender equality, sound working conditions and respecting of employees' rights, as well as maintaining good relations with the customers within its organization and takes appropriate measures to achieve these goals on an ongoing basis. The Company's efforts include inter alia investing in the development of employees' competences, supporting women in managerial positions in their development, conducting a periodic Work Environment Survey and organizational culture survey, regular trainings in occupational health and safety and psychological safety, as well as applying the Code of ethics in business relations. In addition, the Company co-creates and supports initiatives for professional and modern recruitment, the development of digital competences and the prevention of inequality, and implements knowledge sharing and market and candidates education initiatives. The Company strives to apply the corporate governance rules to the fullest extent possible, and thus, it is the Company's intention to formalize its assumed strategic objectives and to include ESG issues in them as well.*
- 1.4. To ensure quality communications with stakeholders, as a part of the business strategy, companies publish on their website information concerning the framework of the strategy, measurable goals, including in particular long-term goals, planned activities and their status, defined by measures, both financial and non-financial. ESG information concerning the strategy should among others:
The principle is not applied.
Comments of the Company: *A formal business strategy has not been adopted in the Company. However, the Company's*

Management Board communicates to market participants and shareholders (inter alia in presentations regarding financial results) the strategic objectives consulted with the Supervisory Board - to the extent necessary for them to understand the main assumptions of the development directions of the Company and its capital group. The Company strives to apply the corporate governance rules to the fullest extent possible, and thus, it is the Company's intention to formalize its assumed strategic goals and to include ESG issues in them as well. In case of adoption of business strategy, the Company declares its publication and posting of the necessary information required by principle 1.4 on the Company's website.

1.4.1. explain how the decision-making processes of the company and its group members integrate climate change, including the resulting risks;

The principle is not applied.

Comments of the Company: A formal business strategy including issues mentioned in principle 1.4.1. has not been adopted in the Company. Nonetheless, the Company's Management Board strives to include climate change and sustainability issues in its decision-making processes, aiming to lower the carbon footprint generated by the group companies and reduce the negative environmental impact of their operations.

1.4.2. present the equal pay index for employees, defined as the percentage difference between the average monthly pay (including bonuses, awards and other benefits) of women and men in the last year, and present information about actions taken to eliminate any pay gaps, including a presentation of related risks and the time horizon of the equality target.

The principle is not applied.

Comments of the Company: A formal business strategy has not been adopted in the Company and thus statistics with respect to issues referred to in principle 1.4.2 are not prepared by the Company. Nevertheless, the Company provides its employees and co-workers with fair remuneration and equal access to development path regardless of gender. Most of all, employees and co-workers of the Company are remunerated according to their skills, taking into account market rates and sector's competitiveness, not by gender. The Company will also strive to meet the requirements of the Directive on pay equality and transparency, in particular, to introduce transparent remuneration structures.

1.5. Companies disclose at least on an annual basis the amounts expended by the company and its group in support of culture, sports, charities, the media, social organisations, trade unions, etc. If the company or its group pay such expenses in the reporting year, the disclosure presents a list of such expenses.

The principle is not applied.

Comments of the Company: The Company's social and sponsoring activities have not been formalized yet, and to date, expenses on sponsoring activities have not been material in relation to other costs of the Company's capital group. In the event that spendings on social and sponsoring activities reach a significant level compared to the other expenses of the capital group, the Company will revise its position and consider publishing a statement of such expenses. Notwithstanding the above, the Company presents information on the key CSR initiatives undertaken in the non financial report for the given financial year.

1.6. Companies participating in the WIG20, mWIG40 or sWIG80 index hold on a quarterly basis and other companies hold at least on an annual basis a meeting with investors to which they invite in particular shareholders, analysts, industry experts and the media. At such meetings, the management board of the company presents and comments on the strategy and its implementation, the financial results of the company and its group, and the key events impacting the business of the company and its group, their results and outlook. At such meetings, the management board of the company publicly provides answers and explanations to questions raised.

The principle is applied.

1.7. If an investor requests any information about a company, the company replies immediately and in any case no later than within 14 days.

The principle is applied.

2. MANAGEMENT BOARD, SUPERVISORY BOARD

To ensure top standards of the responsibilities and effective performance of the management board and the supervisory board of a company, only persons with the adequate competences, skills and experience are appointed to the management board and the supervisory board.

Management Board members act in the interest of the company and are responsible for its activity. The management board is responsible among others for the company's leadership, engagement in setting and implementing its strategic objectives, and ensuring the company's efficiency and safety.

Supervisory board members acting in their function and to the extent of their responsibilities on the supervisory board follow their independent opinion and judgement, including in decision making, and act in the interest of the company.

The supervisory board functions in the spirit of debate and analyses the position of the company in the context of the sector and the market on the basis of information provided by the management board of the company and via the company's internal systems and functions and obtained from external sources, using the output of its

committees. The supervisory board in particular issues opinions on the company's strategy, verifies the work of the management board in pursuit of defined strategic objectives, and monitors the company's performance.

- 2.1. Companies should have in place a diversity policy applicable to the management board and the supervisory board, approved by the supervisory board and the general meeting, respectively. The diversity policy defines diversity goals and criteria, among others including gender, education, expertise, age, professional experience, and specifies the target dates and the monitoring systems for such goals. With regard to gender diversity of corporate bodies, the participation of the minority group in each body should be at least 30%.

The principle is not applied.

Comments of the Company: *The Company has not set specific diversity targets for the composition of the Management and Supervisory Board, but is oriented at the knowledge, relevant qualifications and experience of the candidates. A balanced proportion of women and men in the Management and Supervisory Board will be considered in the future, depending on the scope of the duties assigned, the availability of candidates suitable for the position and the size of the Management and Supervisory Board. The Company will also strive to meet the requirements of the Directive on improving gender balance among directors of listed companies and related measures, and to ensure the diversity of the composition of the Company's bodies within the statutory deadline. At the same time, the Company notes that the final decision on the composition of the Supervisory the Management Board rests respectively with the General Meeting and the Supervisory Board, taking into account the personal rights of Shareholders set forth in the Company's Articles of Association.*

- 2.2. Decisions to elect members of the management board or the supervisory board of companies should ensure that the composition of those bodies is diverse by appointing persons ensuring diversity, among others in order to achieve the target minimum participation of the minority group of at least 30% according to the goals of the established diversity policy referred to in principle 2.1.

The principle is not applied.

Comments of the Company: *A balanced proportion of women and men in the Management and Supervisory Board will be considered in the future, depending on the scope of the duties assigned, the availability of candidates suitable for the position and the size of the Management and Supervisory Board. The Company will also strive to meet the requirements of the Directive on improving gender balance among directors of listed companies and related measures, and to ensure the diversity of the composition of the Company's bodies within the statutory deadline. At the same time, the Company notes that the final decision on the composition of the Supervisory the Management Board rests respectively with the General Meeting and the Supervisory Board, taking into account the personal rights of Shareholders set forth in the Company's Articles of Association.*

- 2.3. At least two members of the supervisory board meet the criteria of being independent referred to in the Act of 11 May 2017 on Auditors, Audit Firms and Public Supervision, and have no actual and material relations with any shareholder who holds at least 5% of the total vote in the company.

The principle is applied.

- 2.4. The supervisory board and the management board vote in an open ballot unless otherwise required by law.

The principle is applied.

- 2.5. Members of the supervisory board and members of the management board who vote against a resolution may have their dissenting vote recorded in the minutes.

The principle is applied.

- 2.6. Functions on the management board of a company are the main area of the professional activity of management board members. Management board members should not engage in additional professional activities if the time devoted to such activities prevents their proper performance in the company.

The principle is applied.

- 2.7. A company's management board members may sit on corporate bodies of companies other than members of its group subject to the approval of the supervisory board.

The principle is not applied.

Comments of the Company: *The Company does not have regulations under which the performance of functions by members of the Company's Management Board in the governing bodies of entities outside the capital group would require the approval of the Supervisory Board. However, in accordance with the wording of the Company's Articles of Association currently in force, a member of the Management Board, without the prior consent of the Supervisory Board, is not authorized to engage in the business competitive towards Company's business or to participate in a competing company as a partner in a civil partnership, partnership or as a member of a governing body of a capital company, or to participate in another competing legal entity as a member of a governing body. This prohibition also includes participation in a competitive capital company, in the event that a member of the Management Board holds more than 10% of the shares in it or has the right to appoint at least one member of the management board. In the Company's opinion, given that performing function in the Company's Management Board is the main area of activity of the members of the Management Board, the fact that members of the Management Board are members of the bodies of other, non-competitive entities does not prevent them from proper performance of their duties at the Company.*

- 2.8. Supervisory board members should be able to devote the time necessary to perform their duties.

The principle is applied.

- 2.9. The chair of the supervisory board should not combine this function with that of chair of the audit committee of the supervisory board.

The principle is applied.

- 2.10. Companies allocate administrative and financial resources necessary to ensure efficient functioning of the supervisory board in a manner adequate to their size and financial standing.

The principle is applied.

- 2.11. In addition to its responsibilities laid down in the legislation, the supervisory board prepares and presents an annual report to the annual general meeting once per year. Such report includes at least the following:

2.11.1. information about the members of the supervisory board and its committees, including indication of

those supervisory board members who fulfil the criteria of being independent referred to in the Act of 11 May 2017 on Auditors, Audit Firms and Public Supervision and those supervisory board members who have no actual and material relations with any shareholder who holds at least 5% of the total vote in the company, and information about the members of the supervisory board in the context of diversity;

The principle is applied.

- 2.11.2.** summary of the activity of the supervisory board and its committees;
The principle is applied.
- 2.11.3.** assessment of the company's standing on a consolidated basis, including assessment of the internal control, risk management and compliance systems and the internal audit function, and information about measures taken by the supervisory board to perform such assessment; such assessment should cover all significant controls, in particular reporting and operational controls;
The principle is applied.
- 2.11.4.** assessment of the company's compliance with the corporate governance principles and the manner of compliance with the disclosure obligations concerning compliance with the corporate governance principles defined in the Exchange Rules and the regulations on current and periodic reports published by issuers of securities, and information about measures taken by the supervisory board to perform such assessment;
The principle is applied.
- 2.11.5.** assessment of the rationality of expenses referred to in principle 1.5;
The principle is not applied.
Comments of the Company: *This principle is not complied with due to non-compliance by the Company with principle 1.5. In the event that spendings on social and sponsoring activities reach a significant level compared to the other expenses of the capital group, the Company will submit a summary of these expenses to the Supervisory Board for evaluation from the point of view of their reasonableness.*
- 2.11.6.** information regarding the degree of implementation of the diversity policy applicable to the management board and the supervisory board, including the achievement of goals referred to in principle 2.1.
The principle is not applied.
Comments of the Company: *This principle is not complied with due to non-compliance by the Company with principle 2.1. If the Company adopts a diversity policy, then the Supervisory Board will include in its report information on the degree of implementation of the policy with respect to the Management and Supervisory Board.*

3. INTERNAL SYSTEMS AND FUNCTIONS

Efficient internal systems and functions are an indispensable tool of exercising supervision over a company.

The systems cover the company and all areas of activity of its group which have a significant impact on the position of the company.

- 3.1.** Listed companies maintain efficient internal control, risk management and compliance systems and an efficient internal audit function adequate to the size of the company and the type and scale of its activity; the management board is responsible for their functioning.
The principle is applied.
- 3.2.** Companies' organisation includes units responsible for the tasks of individual systems and functions unless it is not reasonable due to the size of the company or the type of its activity.
The principle is applied.
- 3.3.** Companies participating in the WIG20, mWIG40 or sWIG80 index appoint an internal auditor to head the internal audit function in compliance with generally accepted international standards for the professional practice of internal auditing. In other companies which do not appoint an internal auditor who meets such requirements, the audit committee (or the supervisory board if it performs the functions of the audit committee) assesses on an annual basis whether such person should be appointed.
The principle is applied.
- 3.4.** The remuneration of persons responsible for risk and compliance management and of the head of internal audit should depend on the performance of delegated tasks rather than short-term results of the company.
The principle is applied.
- 3.5.** Persons responsible for risk and compliance management report directly to the president or other member of the management board.
The principle is applied.

- 3.6. The head of internal audit reports organisationally to the president of the management board and functionally to the chair of the audit committee or the chair of the supervisory board if the supervisory board performs the functions of the audit committee.
The principle is not applied.
Comments of the Company: *The Company applies this principle only partially. The person responsible for the internal audit reports organisationally to the member of the Management Board - Chief Financial Officer, while functionally to the Chairman of the Audit Committee. Such organizational subordination is in accordance with the IIA Standards and, in the Company's opinion, allows for the proper performance of duties, without jeopardizing the independence and objectivity of the internal auditor.*
- 3.7. Principles 3.4 to 3.6 apply also to members of the company's group which are material to its activity if they appoint persons to perform such tasks.
The principle is applied.
- 3.8. The person responsible for internal audit or the management board if such function is not performed separately in the company reports to the supervisory board at least once per year with their assessment of the efficiency of the systems and functions referred to in principle 3.1 and tables a relevant report.
The principle is applied.
- 3.9. The supervisory board monitors the efficiency of the systems and functions referred to in principle 3.1 among others on the basis of reports provided periodically by the persons responsible for the functions and the company's management board, and makes annual assessment of the efficiency of such systems and functions according to principle 2.11.3. Where the company has an audit committee, the audit committee monitors the efficiency of the systems and functions referred to in principle 3.1, which however does not release the supervisory board from the annual assessment of the efficiency of such systems and functions.
The principle is applied.
- 3.10. Companies participating in the WIG20, mWIG40 or sWIG80 index have the internal audit function reviewed at least once every five years by an independent auditor appointed with the participation of the audit committee.
The principle is applied.

4. GENERAL MEETING, SHAREHOLDER RELATIONS

The management board and the supervisory board of listed companies should encourage the engagement of shareholders in matters of the company, in particular through active participation in the general meeting, either in person or through a proxy.

The general meeting should proceed by respecting the rights of all shareholders and ensuring that passed resolutions do not infringe on legitimate interests of different groups of shareholders.

Shareholders who participate in a general meeting exercise their rights in accordance with the rules of good conduct. Participants of a general meeting should come prepared to the general meeting.

- 4.1. Companies should enable their shareholders to participate in a general meeting by means of electronic communication (e-meeting) if justified by the expectations of shareholders notified to the company, provided that the company is in a position to provide the technical infrastructure necessary for such general meeting to proceed.
The principle is applied.
- 4.2. Companies set the place and date and the form of a general meeting so as to enable the participation of the highest possible number of shareholders. For that purpose, companies strive to ensure that the cancellation of a general meeting, change of its date or break in its proceedings take place only if justified and do not prevent or limit the exercising of the shareholders' rights to participate in the general meeting.
The principle is applied.
- 4.3. Companies provide a public real-life broadcast of the general meeting.
The principle is applied.
- 4.4. Presence of representatives of the media is allowed at general meetings.
The principle is applied.
- 4.5. If the management board becomes aware a general meeting being convened pursuant to Article 399 § 2 - 4 of the Commercial Companies Code, the management board immediately takes steps which it is required to take in order to organise and conduct the general meeting. The foregoing applies also where a general meeting is convened under authority granted by the registration court according to Article 400 § 3 of the Commercial Companies Code.
The principle is applied.
- 4.6. To help shareholders participating in a general meeting to vote on resolutions with adequate understanding, draft resolutions of the general meeting concerning matters and decisions other than points of order should contain a

justification, unless it follows from documentation tabled to the general meeting. If a matter is put on the agenda of the general meeting at the request of a shareholder or shareholders, the management board requests presentation of the justification of the proposed resolution, unless previously presented by such shareholder or shareholders.

The principle is applied.

- 4.7. The supervisory board issues opinions on draft resolutions put by the management board on the agenda of the general meeting.

The principle is applied.

- 4.8. Draft resolutions of the general meeting on matters put on the agenda of the general meeting should be tabled by shareholders no later than three days before the general meeting.

The principle is not applied.

Comments of the Company: *The Company expresses its support for the above principle, however, does not restrict shareholders from submitting draft resolutions of the General Meeting for matters included in the agenda within a shorter period than indicated in principle 4.8. and with respect to submission of draft resolutions of the General Meeting for matters included in the agenda, the Company follows the principle set forth in Article 401 § 5 of the Commercial Companies Code, according to which any shareholder of the Company may, during the General Meeting, submit draft resolutions concerning matters included in the agenda. While convening the General Meeting, the Company intends to encourage shareholders to submit draft resolutions in observance with this the principle, however it cannot guarantee that shareholders will follow its suggestions.*

- 4.9. If the general meeting is to appoint members of the supervisory board or members of the supervisory board for a new term of office:

- 4.9.1. candidates for members of the supervisory board should be nominated with a notice necessary for shareholders present at the general meeting to make an informed decision and in any case no later than three days before the general meeting; the names of candidates and all related documents should be immediately published on the company's website;

The principle is applied.

- 4.9.2. candidates for members of the supervisory board make a declaration concerning fulfilment of the requirements for members of the audit committee referred to in the Act of 11 May 2017 on Auditors, Audit Firms and Public Supervision and having actual and material relations with any shareholder who holds at least 5% of the total vote in the company.

The principle is applied.

- 4.10. Any exercise of the rights of shareholders or the way in which they exercise their rights must not hinder the proper functioning of the governing bodies of the company.

The principle is applied.

- 4.11. Members of the management board and members of the supervisory board participate in a general meeting, at the location of the meeting or via means of bilateral real-time electronic communication, as necessary to speak on matters discussed by the general meeting and answer questions asked at the general meeting. The management board presents to participants of an annual general meeting the financial results of the company and other relevant information, including non-financial information, contained in the financial statements to be approved by the general meeting. The management board presents key events of the last financial year, compares presented data with previous years, and presents the degree of implementation of the plans for the last year.

The principle is applied.

- 4.12. Resolutions of the general meeting concerning an issue of shares with subscription rights should specify the issue price or the mechanism of setting the price or authorise the competent body to set the price prior to the subscription right record date within a timeframe necessary for investors to make decisions.

The principle is applied.

- 4.13. Resolutions concerning a new issue of shares with the exclusion of subscription rights which grant pre-emptive rights for new issue shares to selected shareholders or other entities may pass subject at least to the following three criteria:

a) the company has a rational, economically justified need to urgently raise capital or the share issue is related to rational, economically justified transactions, among others such as a merger with or the take-over of another company, or the shares are to be taken up under an incentive scheme established by the company;

b) the persons granted the pre-emptive right are to be selected according to objective general criteria;

c) the purchase price of the shares is in a rational relation with the current share price of the company or is to be determined in book-building on the market.

The principle is applied.

- 4.14. Companies should strive to distribute their profits by paying out dividends. Companies may retain all their earnings subject to any of the following criteria:

a) the earnings are minimal and consequently the dividend would be immaterial in relation to the value of the shares;

b) the company reports uncovered losses from previous years and the earnings are used to reduce such losses;

c) the company can demonstrate that investment of the earnings will generate tangible benefits for the shareholders;

d) the company generates insufficient cash flows to pay out dividends;

e) a dividend payment would substantially increase the risk to covenants under the company's binding credit facilities or terms of bond issue;

f) retention of the company's earnings follows recommendations of the authority which supervises the company by virtue of its business activity.

The principle is applied.

5. CONFLICT OF INTEREST, RELATED PARTY TRANSACTIONS

For the purpose of this section, 'related party' is defined within the meaning of the International Accounting Standards approved in Regulation No (EU) 1606/2002 of the European Parliament and of the Council of 19 July 2002 on the application of international accounting standards.

Companies and their groups should have in place transparent procedures for managing conflicts of interest and for related party transactions where a conflict of interest may occur. The procedures should provide for ways to identify and disclose such cases and the course of action in the event that they occur.

Members of the management board and members of the supervisory board should refrain from professional or other activities which might cause a conflict of interest or adversely affect their reputation as members of the corporate body, and where a conflict of interest arises, they should immediately disclose it.

- 5.1. Members of the management board and members of the supervisory board notify the management board or the supervisory board, respectively, of any conflict of interest which has arisen or may arise, and refrain from discussions on the issue which may give rise to such a conflict of interest in their case.
The principle is applied.
- 5.2. Where a member of the management board or a member of the supervisory board concludes that a decision of the management board or the supervisory board, respectively, is in conflict with the interest of the company, he or she should request that the minutes of the management board or supervisory board meeting show his or her dissenting opinion.
The principle is applied.
- 5.3. No shareholder should have preference over other shareholders in related party transactions. The foregoing also concerns transactions concluded by the company's shareholders with members of the company's group.
The principle is applied.
- 5.4. Companies may buy back their own shares only in a procedure which respects the rights of all shareholders.
The principle is applied.
- 5.5. If a transaction concluded by a company with its related party requires the consent of the supervisory board, before giving its consent the supervisory board assesses whether to ask a prior opinion of a third party which can provide valuation of the transaction and review its economic impact.
The principle is applied.
- 5.6. If a related party transaction requires the consent of the general meeting, the supervisory board issues an opinion on the rationale of such transaction. In that case, the supervisory board assesses whether to ask a prior opinion of a third party referred to in principle 5.5.
The principle is applied.
- 5.7. If a decision concerning the company's significant transaction with a related party is made by the general meeting, the company should give all shareholders access to information necessary to assess the impact of the transaction on the interest of the company before the decision is made, including an opinion of the supervisory board referred to in principle 5.6.
The principle is applied.

6. REMUNERATION

Companies and their groups protect the stability of their management teams, among others by transparent, fair, consistent and non-discriminatory terms of remuneration, including equal pay for women and men.

Companies' remuneration policy for members of corporate bodies and key managers should in particular determine the form, structure, and method of determining and payment of the remuneration.

- 6.1. The remuneration of members of the management board and members of the supervisory board and key managers should be sufficient to attract, retain and motivate persons with skills necessary for proper management and supervision of the company. The level of remuneration should be adequate to the tasks and responsibilities delegated to individuals and their resulting accountability.

The principle is applied.

- 6.2. Incentive schemes should be constructed in a way necessary among others to tie the level of remuneration of members of the company's management board and key managers to the actual long-term standing of the company measured by its financial and non-financial results as well as long-term shareholder value creation, sustainable development and the company's stability.

The principle is applied.

- 6.3. If companies' incentive schemes include a stock option programme for managers, the implementation of the stock option programme should depend on the beneficiaries' achievement, over a period of at least three years, of pre-defined, realistic financial and non-financial targets and sustainable development goals adequate to the company, and the share price or option exercise price for the beneficiaries cannot differ from the value of the shares at the time when such programme was approved.

The principle is not applied.

Comments of the Company: *The Company's existing share-based incentive scheme (adopted before the date of Company's IPO) is dependent on the achievement of ambitious financial and non-financial targets in the period from 2022 to 2024, but is not dependent on the achievement of the sustainability objectives. The settlement of this scheme will take place after March 31, 2025. This scheme will be implemented through the issue of shares at a price significantly lower than the value of the shares at the moment of the adoption of the scheme. The Company will consider applying this principle in the future.*

- 6.4. As the supervisory board performs its responsibilities on a continuous basis, the remuneration of supervisory board members cannot depend on the number of meetings held. The remuneration of members of committees, in particular the audit committee, should take into account additional workload on the committee.

The principle is applied.

- 6.5. The level of remuneration of supervisory board members should not depend on the company's short-term results.

The principle is applied.
